

GREATER BRUNSWICK IN SOLIDARITY WITH

#OCCUPYWALLSTREET

Every Saturday

10:30 am – 12:00 pm

**Gather on the Mall.
March to Bank of America.
Speak out for the 99%.**

- Corporate money controls our government.
- We are being threatened with cuts to Social Security, Medicare and environmental regulations because corporations and banks don't pay their fair share in taxes.
- Millions of Americans have lost their jobs and/or their homes while bankers rake in millions in bonuses.
- The top one percent owns 40% of the nation's wealth.
- At a time when our planet is threatened, corporations are fueling climate change and funding its denial.
- The richest one percent nearly tripled their income in the last 30 years.

Why Protest at Bank of America?

- The banks are part of the **military/industrial complex** that President Eisenhower warned us about. The more money the government borrows to promote war, the more money the banks make.
- Not only did **Bank of America pay no income taxes last year**, it actually got a **\$1 billion refund**. The bank has subsidiaries in **foreign tax havens** to hide its profits, making it possible for it to claim losses of billions of dollars.
- Bank of America is guilty of **predatory lending, mortgage fraud and illegal foreclosures**.
- With encouragement from the Fed, the Bank is shifting its uninsured risky derivatives contracts to its FDIC-insured balance sheet, **making taxpayers responsible for its losses**.

All are welcome. Bring signs, drums, friends, and family.
